Certifications

- Microsoft DP-900: Azure Data Fundamentals

Skills

Languages & Data

- Python
- SQL (PostgreSQL)
- Pandas
- NumPy

AI & Machine Learning

- LLMs
- RAG
- Prompt Engineering
- Fine-Tuning
- Scikit-learn
- PyTorch

Cloud & DevOps

- Azure
- Azure DevOps
- Microsoft Fabric
- Docker
- Git/GitHub

Development

- React
- React Native
- Next.js
- FastAPI
- TailwindCSS

Emma Thonfors

AI Data Engineer at Sogeti with a background in Fullstack Development and AI & Machine Learning Engineering.

Experienced in translating business needs into data-driven and AI-powered solutions, from requirements gathering and development to validation and deployment.

Experience

- **Sogeti**
AI Data Engineer

March 2026 - Present

Developing cloud-based data solutions and predictive analytics projects within Sogeti's CareerBooster program.

- Developed data-driven solutions using Azure, Microsoft Fabric, and Azure DevOps across multiple agile teams.
 - Built an internal AI agent system to automate ETL validation and testing workflows.
 - Improved data quality, reliability, and efficiency by reducing manual validation efforts.
- **Gmbl-insight**
AI Developer

October 2025 -March 2026

Built and fine-tuned an AI solution for an online gambling addiction treatment platform using LLM fine-tuning, prompt engineering, and RAG.

- Developed a web-based validation platform for therapists and end users.
 - Worked closely with therapists to evaluate and improve AI-generated responses through iterative prompt engineering and fine-tuning.
 - Validated model outputs across a wide range of user scenarios to ensure response quality and alignment with clinical requirements.
 - Managed infrastructure using Hetzner, Docker, Celery, Redis, and Runpod serverless GPU endpoints.
- **Wedding Website**
Freelance – Fullstack Development

May 2025 - May 2026

Designed, developed, and launched a full-stack wedding platform using React, FastAPI, Python, and PostgreSQL.

- Built custom event management functionality including RSVP and guest administration.
 - Developed an admin dashboard for communication and attendee management.
 - Delivered the solution end-to-end, from requirements gathering to cloud deployment.
- **Mentatt**
Freelance - Web Development

May 2024 – August 2024

Developed a multilingual website for a mental health startup serving the African market, implementing internationalization (i18n) for multilingual support across regions.

- Translated business requirements into technical solutions through close client collaboration.
 - Built reusable React Native components and established the foundation for the company's future mobile application.

Education

- Engineer AI and Machine Learning**
Teknikhögskolan

2024 - 2026
- Frontend Development**
Chas Academy

2022 - 2024
